BEDDELEEM

Sustainable and functional total fit-out for care institutions : complete unburdening

We believe in creating environments that are not only functional but also exude a warm and welcoming atmosphere.

As a leading company in high-quality interior finishes, we take pride in our years of experience in designing and realizing spaces that meet the unique needs of healthcare institutions, including hospitals and residential and care centers.

With a passionate team of experts and an extensive range of innovative products, we strive to make a difference in the quality of life for patients, residents, and caregivers.

“ Together, we ensure an environment where care, comfort, and well-being take center stage.

Ghent

Our focus lies in **sustainability, functionality, aesthetics**, and the seamless integration of our products into the specific environment of each healthcare institution. With precision and dedication, we contribute to the enhanced quality of healthcare environments.

With an emphasis on high-quality materials and craftsmanship, we delivered a wide range of solutions, including mineral fibre and rock wool ceilings, plasterboard ceilings and partitions, **JB system partitions** and **JB STORE** cabinets.

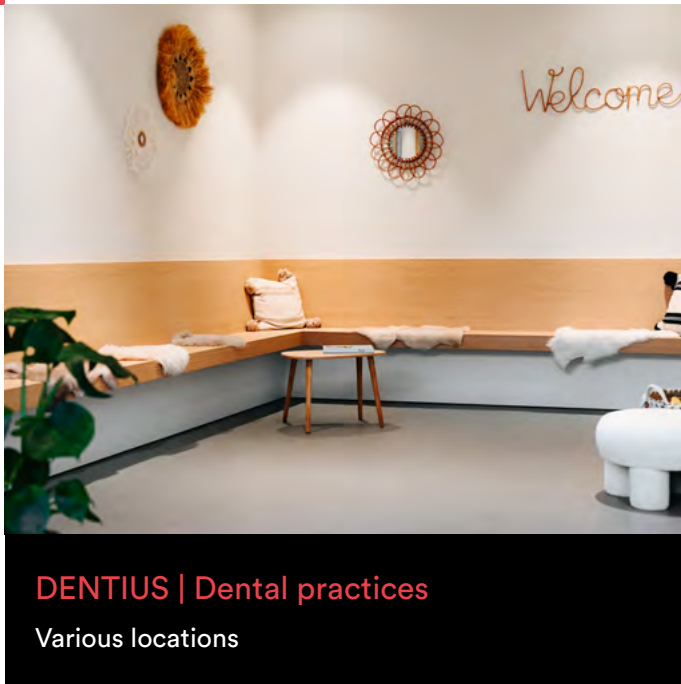

AZ DELTA is a leading healthcare centre known for its commitment to high-quality patient care and innovative approaches in the medical field. In their ongoing commitment to excellence and comfort, they chose **JB COOL® climate ceilings** for several of their campuses including AZ DELTA Campus Rumbeke and AZ DELTA Campus Torhout (AZ Sint Rembert).

The JB COOL® climate elements on ceiling tiles replace the classic air conditioner or heater. The plenum is easily accessible.

AZ DELTA | Hospitals
Rumbeke - Torhout

After previous projects for Dentius in Ternat and Kortenberg, Beddeleem was trusted with the **total fit-out** of the dental practice in Wilrijk.

The consultation rooms, waiting rooms and administrative areas were given a functional and high-quality finish.

From partitions and ceilings to doors, electricity, plumbing, heating, ventilation and air conditioning, window sills, stairs and painting, everything was done to meet the highest standards of a dental practice. Due to our integrated approach, the project proceeded efficiently and within the specified time frame and budget.

Once again, we were allowed to completely unburden a client !

Some of our successful projects :

Hospitals :

AZ Rivierland Bornem | AZ Maria Middelares Ghent | AZ Sint-Jan Bruges
| AZ Middelheim Antwerp | UZ Ghent
| UZ Leuven | UZ Brussels | Polikliniek Edith Cavell Brussels | CHA Libramont
